

## **Zedcor Energy Inc. Announces Signing \$3.9 million Security Service Contract**

CALGARY, ALBERTA – July 16, 2018: Zedcor Energy Inc. (the "Company" or "Zedcor") (TSX VENTURE: ZDC) is pleased to announce that it has signed a Security Services Contract ("Contract") with a Canadian-based pipeline company to provide exclusive security and surveillance services for a pipeline replacement project. This contract is worth approximately \$4 million, over an undetermined period of time, wherein Zedcor will provide; onsite security personnel, remote surveillance monitoring using the new hybrid solar powered light towers equipped with monitoring cameras, and other various pieces of rental equipment as needed.

The light towers are equipped with high resolution surveillance cameras which communicate directly with Zedcor's new security and surveillance monitoring center that will allow the Company to remotely monitor the various pipeline constructions sites and communicate with both the customer and law enforcement if required.

The lighting systems combine the latest in lithium ion battery cells with high efficiency LED lighting, which together optimize fuel consumption and power output while simultaneously reducing CO2 and particulate output by over 90% when compared to conventional diesel light towers. They provide the customer with the financial benefits of lower operating costs and a smaller carbon footprint when compared to tradition diesel light towers. Zedcor's security and surveillance services are provided by licensed professionals, most of whom are former police officers, who bring with them many years of knowledge and experience.

Dean Swanberg, Zedcor Chairman & Interim CEO, stated "This contract for security services for a major pipeline construction project is another significant step forward in our revenue diversification strategy. While the utilization and pricing of our oilfield rental business continues to improve year over year, our ability to secure longer term rental and service contracts in the infrastructure and construction space provides the company with greater stability of revenue."

### **Forward-Looking Statements and Information**

Certain statements included or incorporated by reference in this press release constitute forward-looking statements or forward-looking information. Forward-looking statements or information may contain statements with the words "anticipate", "believe", "expect", "plan", "intend", "estimate", "propose", "budget", "should", "project", "or similar words suggesting future outcomes or expectations. Although the Company believes that the expectations implied in such forward-looking statements or information are reasonable, undue reliance should not be placed on these forward-looking statements because the Company can give no assurance that such statements will prove to be

correct. Forward-looking statements or information are based on current expectations, estimates and projections that involve a number of assumptions about the future and uncertainties. Although management believes these assumptions are reasonable, there can be no assurance that they will be proved to be correct, and actual results will differ materially from those anticipated. For this purpose, any statements herein that are not statements of historical fact may be deemed to be forward-looking statements. The forward-looking statements or information contained in this press release are made as of the date hereof and the Company assumes no obligation to update publicly or revise any forward-looking statements or information, whether as a result of new contrary information, future events or any other reason, unless it is required by any applicable securities laws. The forward-looking statements or information contained in this press release are expressly qualified by this cautionary statement.
